# Asbestos Awareness

---

## Course Aim

The aim of the course is to raise your employees' awareness to the dangers of asbestos and the necessary control measures you require to control it. It will also provide them with an understanding of the health effects associated with asbestos materials.

## Who Should Attend

This course is ideal for anyone who may be at risk of inadvertently disturbing asbestos containing materials while working in buildings. This includes caretakers, electricians, plumbers, maintenance workers, joiners, computer engineers and even cleaners.

### Course Length

Half Day

## Entry Requirements

Candidates are not required to have any prior knowledge or qualifications to enable them to attend this course.

## Accredited By

This is a non-accredited course. All candidates will receive an attendance certificate issued by Envesca Ltd.

## Delivery Methods

- In-House

## The Content

- The Control of Asbestos Regulations 2012.
- Individual's roles and legal responsibilities.
- The different types of asbestos and their properties.
- Health effects of exposure to asbestos.
- Where you might find asbestos.
- Material and products that contain Asbestos.
- What do to if you discover asbestos.
- Actions to take in an emergency.
- Licensable work and notification to enforcement agencies.
- How to avoid the risks from asbestos.
- Preventing exposure to asbestos.
- How to carry out risk assessments.
- Protecting staff, visitors and contractors.
- How to choose the right asbestos removal contractors including site clearance and certification.

## The Benefits

By the end of the course you or your employees will understand the legislation associated with asbestos containing materials and know how to comply with these regulations.

You will know the health risks associated with asbestos and understand the consequences of failure.

On returning to work you will be able to identify the different types of asbestos, know where asbestos is commonly found and most importantly be able to apply practical controls to ensure everyone's safety.

# Asbestos Awareness

---

You will be able to demonstrate compliance with legislation and prove due diligence through training records and certificates. In addition, you, your business, your employees and your customers will be protected.

**OFQUAL Accredited** No

**RQF** No

## What Is Included

- Training in a friendly and relaxed learning environment
- Envesca's proven track record of fantastic results
- Knowledge and guidance from experienced time-served trainers
- Course materials
- The protection of Envesca's genuine "no risk" guarantee
- Excellent after care from a supportive team

## Assessment Method

Candidates will be assessed by a multiple choice examination, where the candidate must answer at least 15 out of 20 questions correctly.

The examination will take approximately half an hour to complete and successful completion will result in an Asbestos Awareness certificate issued by Envesca Ltd.

## Rave Reviews

"I thought our trainer was knowledgeable, enlightening and helpful. I found the first part of the course on hazards and where asbestos can be found very useful for my work. I would highly recommend this course and Envesca."

**Alan Bird**  
**The Eastgate Centre**

## Refresher Recommendation

It is recommended that all candidates who attend the Asbestos Awareness Course refresh their qualification every three years.
