ABOUT THE COURSE

The Control of Asbestos Regulations 2012 requires compulsory training for anyone who may be exposed to asbestos fibres. This course clearly outlines what to be alert to if you encounter asbestos at work, or work in a building where asbestos may be present.

The course is designed to ensure that anyone who may come into contact with asbestos knows what asbestos is and where it can be found. They will also understand the dangers of asbestos and how to protect themselves from accidental exposure.

AREAS COVERED

The modules of this short course include:

- What asbestos is
- Where it can be found
- The types of Asbestos
- Why Asbestos is dangerous
- Asbestos-related diseases
- The law and regulations
- Health implications of asbestos exposure
- Working with asbestos
- Preventing accidental asbestos exposure
- Examples of high risk occupations

ASSESSMENT AND CERTIFICATION

Candidates will be assessed by a series of multiple-choice questions upon the completion of each of the modules. Subject to satisfactory completion, candidates are given access to an electronic CIEH quality endorsed certificate of completion (in PDF format), which they are able to print.
