NOTE: Enabling JavaScript and a stable broadband connection are required.

ABOUT THE COURSE

Legionella bacteria can cause serious illness if the risks are not properly managed. That's why it's important to understand where these bacteria can develop and how to reduce exposure risk.

This Legionella Awareness eLearning course provides a clear, practical introduction to the health risks associated with Legionella and the key legislation surrounding its control.

You'll learn about your responsibilities, how Legionella can develop in water systems, and the importance of water temperature, regular maintenance, and effective control measures to keep people safe.

AREAS COVERED

During this course you will learn about:

- What Legionella is and how it can affect health
- Where Legionella risks can arise in workplace water systems
- Common measures used to reduce Legionella risks
- How to recognise and report potential concerns

ASSESSMENT AND CERTIFICATION

Throughout the course, you'll complete short quizzes and knowledge checks to help reinforce what you've learned. Once you've successfully completed the training, you'll receive a Highfield digital certificate of completion, which you can download and print for your records.
