ABOUT THE COURSE

HACCP stands for Hazard Analysis and Critical Control Point. It's a food safety management system that helps identify and control potential hazards in food production and delivery.

This course is ideal for caterers to gain a better understanding of how HACCP can be simply applied to the catering environment.

AREAS COVERED

The modules of this eLearning course include:

- Definition and importance of HACCP
- Legislation and best practice
- Food safety hazards and types
- Prerequisite programmes
- CODEX 12 logical implementation and the steps of HACCP
- The HACCP team
- Flow diagrams
- Hazard analysis
- Critical control points, critical limits, targets and tolerances
- Monitoring procedures
- Corrective actions
- Validation of the plan and verification procedures
- Documentation and record keeping

ASSESSMENT AND CERTIFICATION

Candidates will be assessed by a series of multiple-choice questions upon the completion of each of the modules. Subject to satisfactory completion, candidates are given access to an electronic Highfield quality endorsed certificate of completion (in PDF format), which they are able to print.
